Training Program Fees and Payment Schedule

Dear prospective student,
You have applied to participate in a unique and specialized training program designed to build local church movements by equipping leaders and translators with the skills to work directly from the original Biblical languages in Bible translation and in the creation of Biblical resources.

The program is intense and each academic year (12 months) consists of 4 semesters (12-16 credit hours per semester) rather than 4 quarters (8-12 credit hours per quarter). This is to maximize your learning opportunity and minimize your time away from home and work.

Below you will find the fees related to each of the programs. These fees only cover our direct training costs and not the full costs of the organization in providing these services. While these fees are relatively low in comparison with the equivalent number of credit hours in a university in the USA or Europe, we recognize that they may seem exorbitant for other nationalities. Therefore, for the sake of justice, we use a 3-tiered fee structure based on the national economic status of each applicant.

All students, regardless of national economic status, are responsible for the following: application and prerequisite course fee; visa fee; mandatory health insurance (required by the government) and flights to and from Jerusalem. Scholarships do not apply toward any of these costs.

Tier 1: Full Scholarship - The student and their agency are responsible only for the costs listed above.

Tier 2: Partial Scholarship - The student and their agency are responsible for the costs listed above plus the difference between the scholarship amount and the program fees.

Tier 3: No scholarship - The student and their agency are responsible for the costs listed above plus all program fees.

If you are awarded a scholarship, the amount of the scholarship will be subtracted from your total program costs, and you will be invoiced accordingly. Please see fee-payment schedule below. Tailored payment plans can be arranged with the finance office in advance of your arrival in Jerusalem. All fee-payment schedules must be strictly adhered to in order for the student to begin and remain in the program.

Below you will find the fees for the various programs. Please select your program to determine the costs. A pictorial diagram is provided to assist you in understanding the various components of each program. The related costs are provided in the accompanying table, in US Dollars.
