## Biblical Hebrew Fluency and Pedagogy Workshop

*Learn to teach biblical Hebrew in biblical Hebrew*

### Program description

This intensive workshop in *Biblical Hebrew Fluency & Pedagogy* will provide you with a framework for developing communicative language teaching skills for biblical Hebrew. Gaining competency in this skillset is critical in light of advances in language learning pedagogy which show that efficient language learning in the classroom, whether for reading or speaking, requires rapid oral communication in the new language.<sup>1</sup>

Such a classroom greatly widens the gate for more students to experience success in learning biblical Hebrew and makes language learning more naturally enjoyable. Come and join us in order to learn, observe, and practice proven techniques for running a classroom in biblical Hebrew from the very beginning. The workshop will significantly enhance the participants' ability to understand spoken biblical Hebrew and to communicate in biblical Hebrew.
